Runner Trash

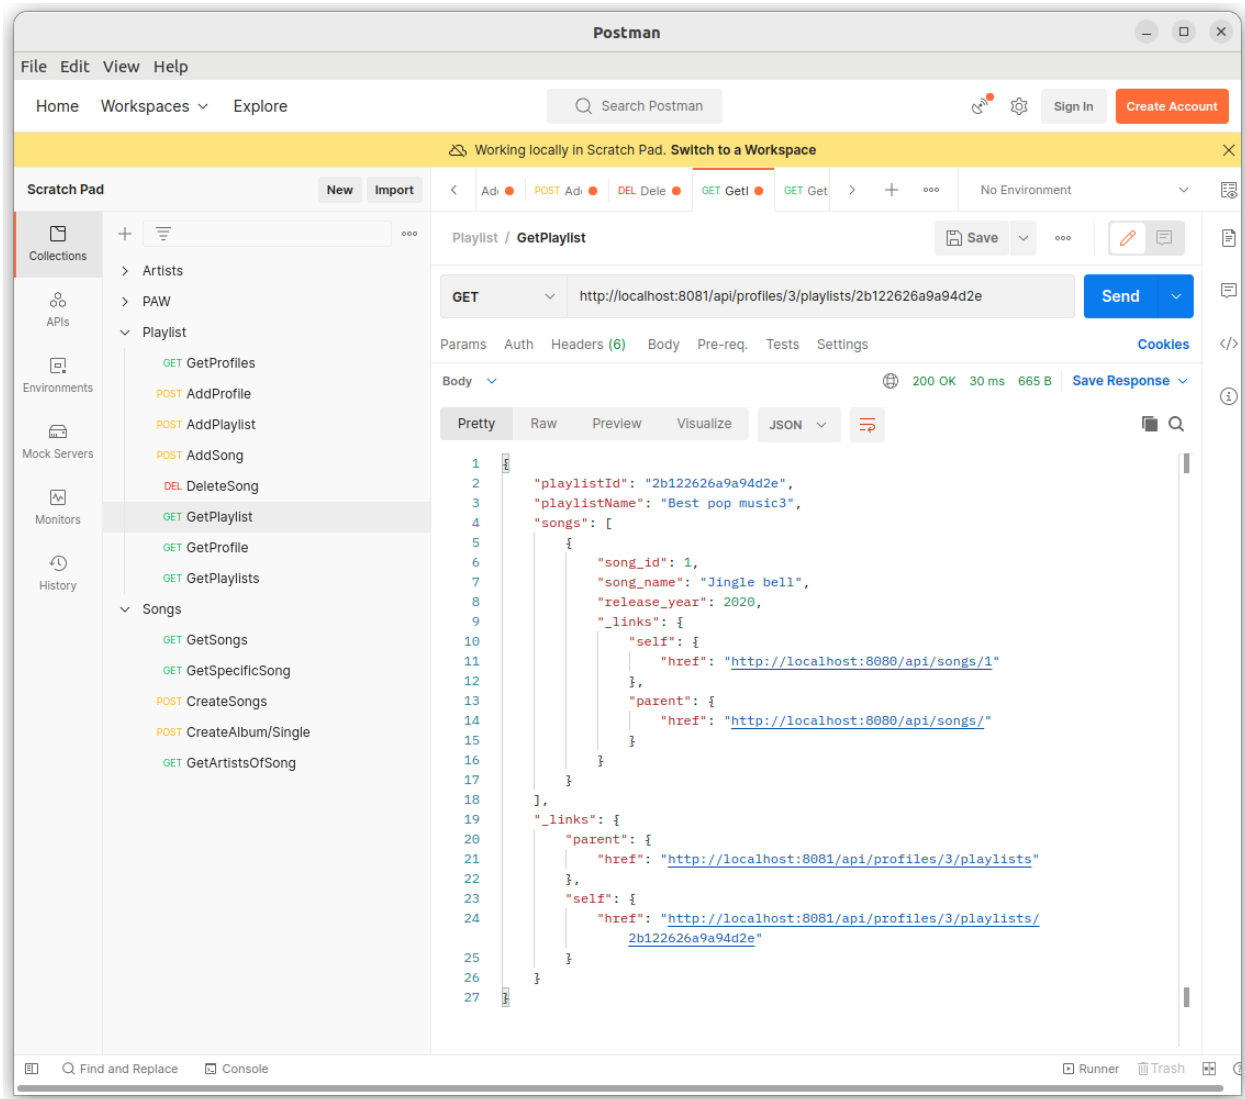

- Get one profile

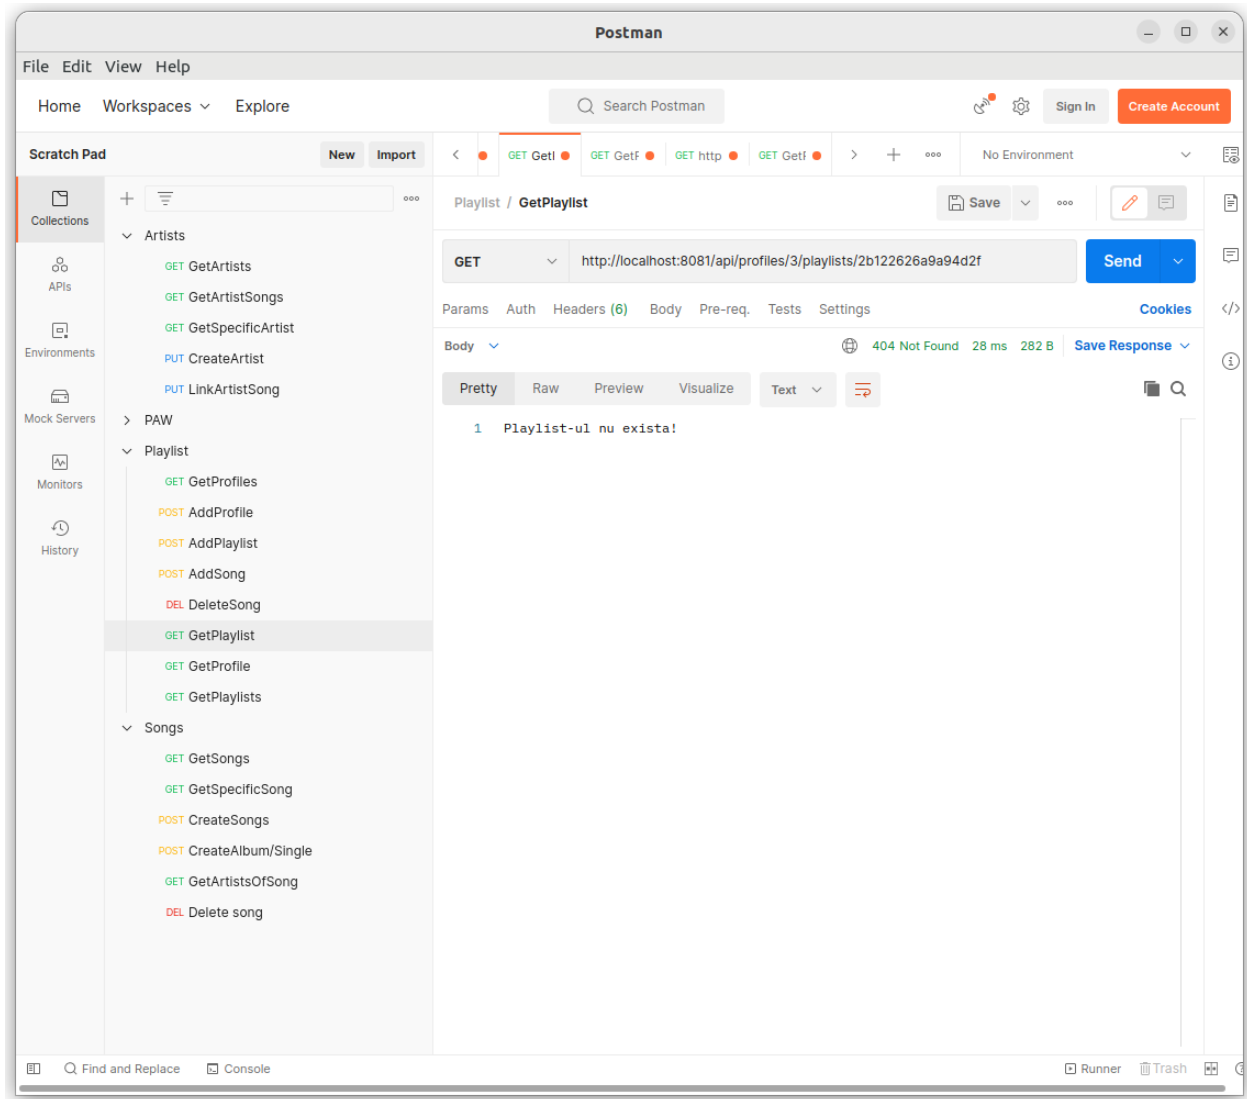

- Get playlists of a profile

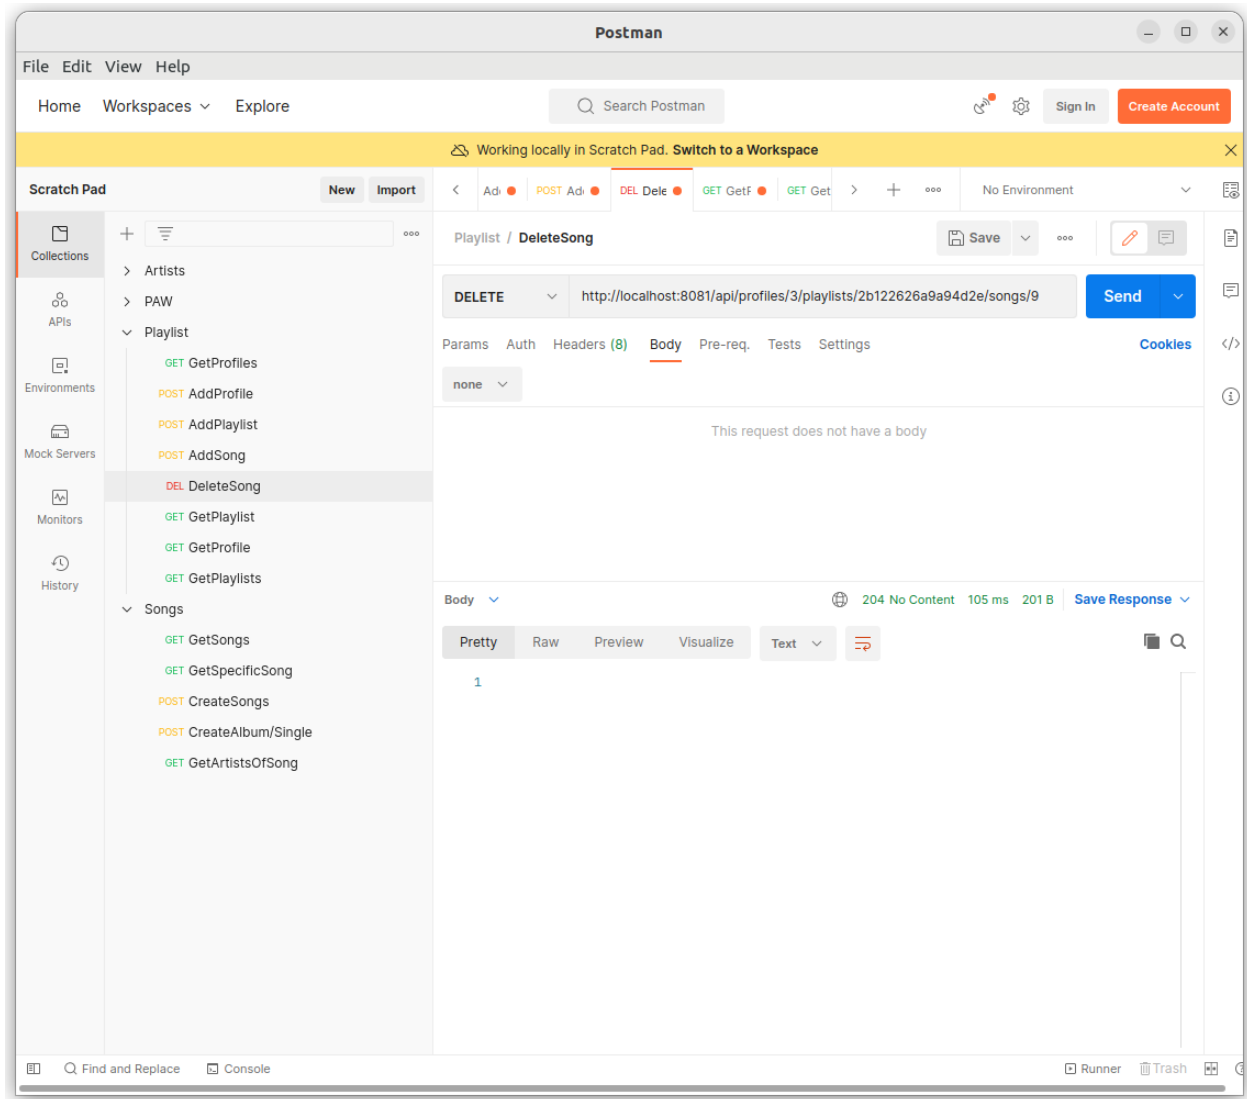

- Get one playlist

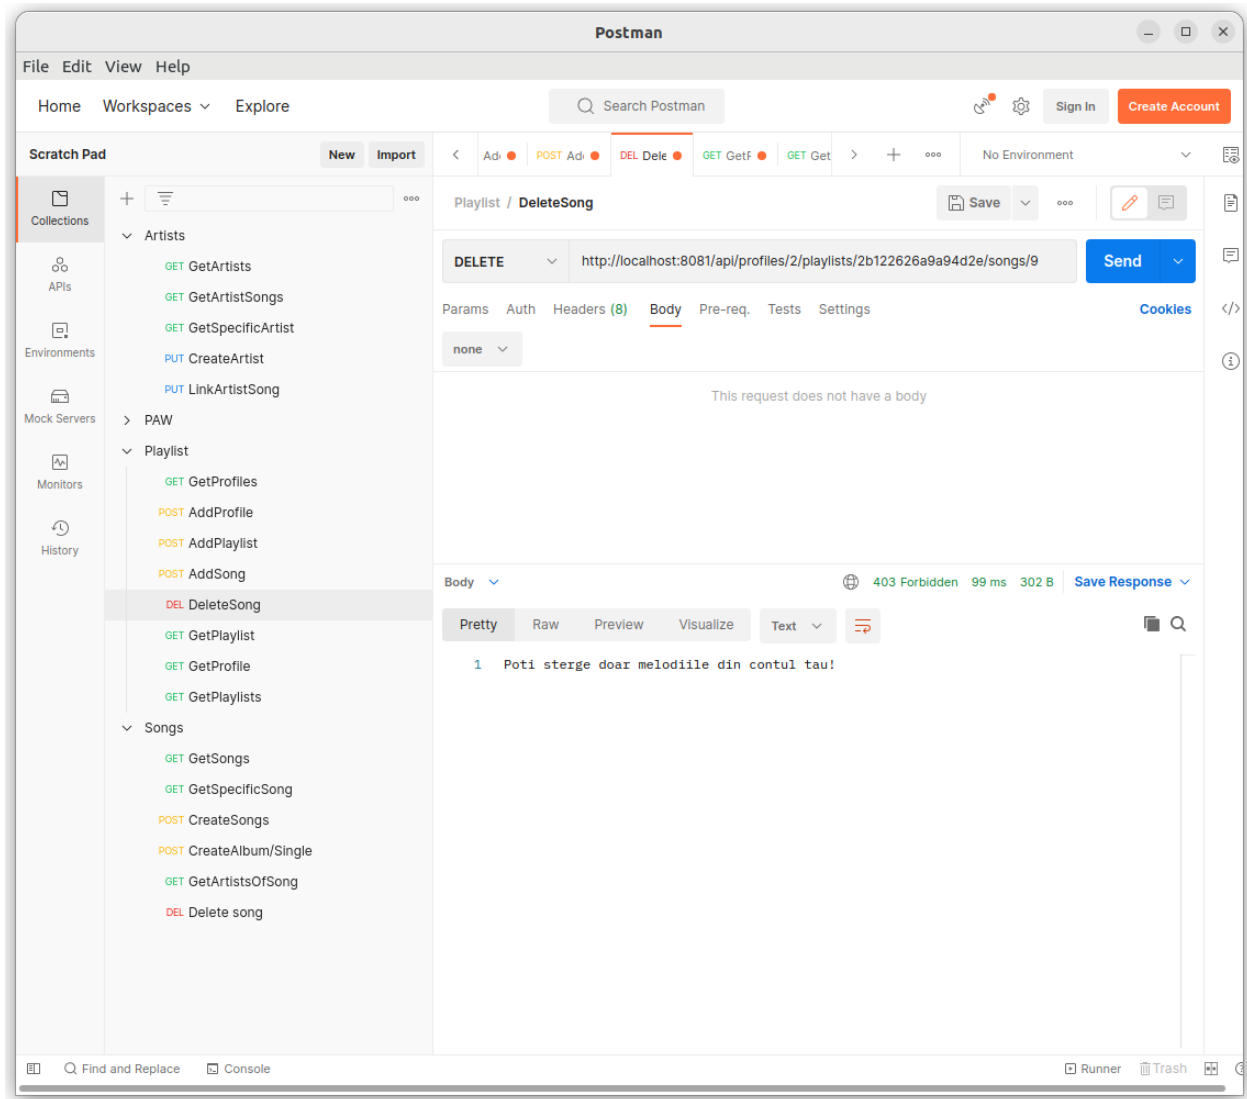

- Get invalid playlist of profile

- Delete song

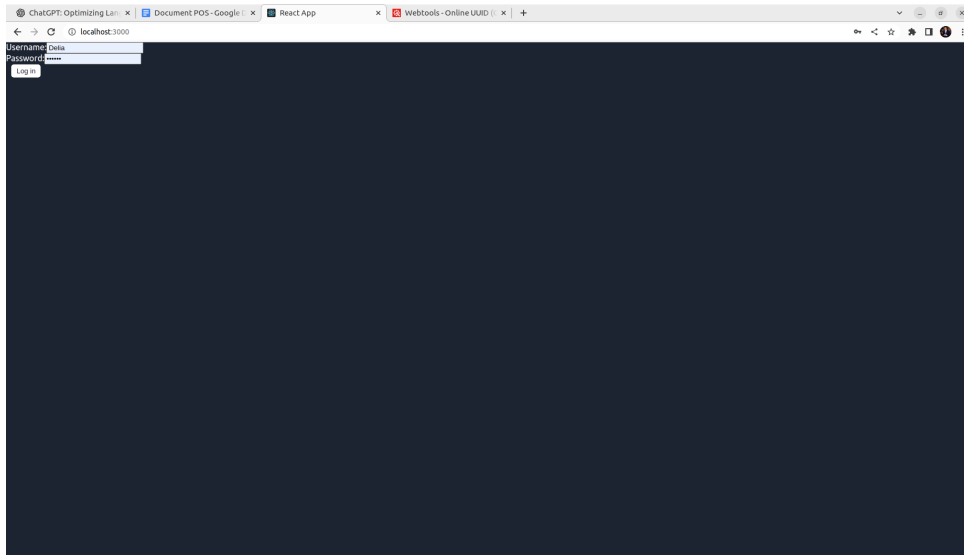

- **Delete song from another person's playlist**

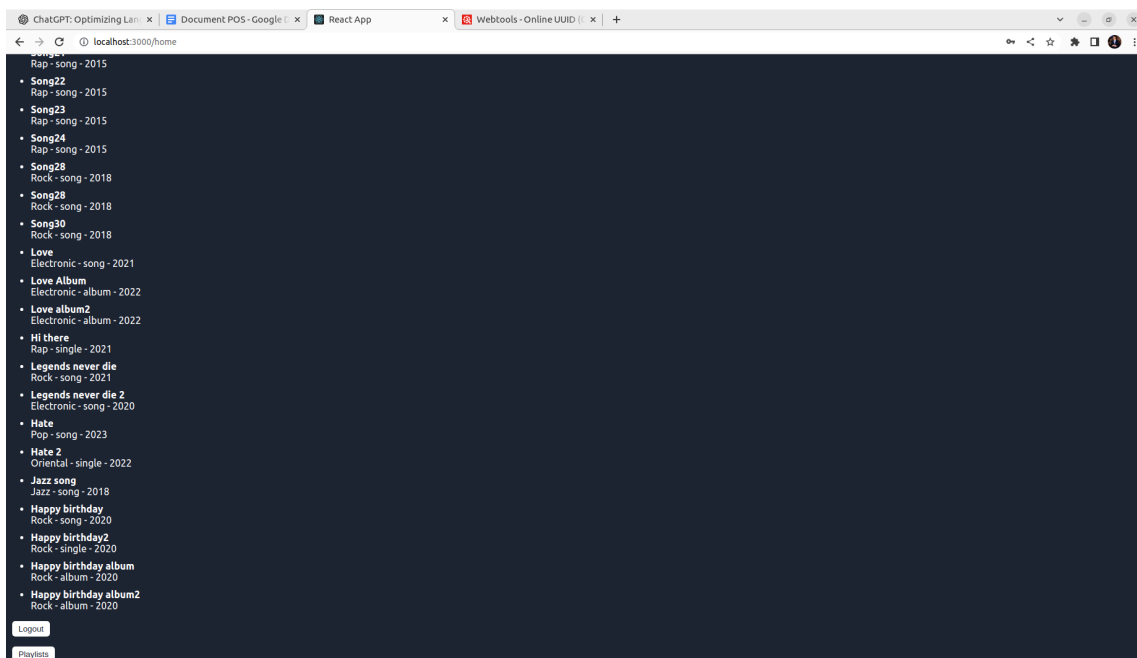

!!! Sunt mult mai multe cazuri de eroare tratate si validari pe campuri, insa am zis sa pun doar o parte in documentatie.

Interfata grafica

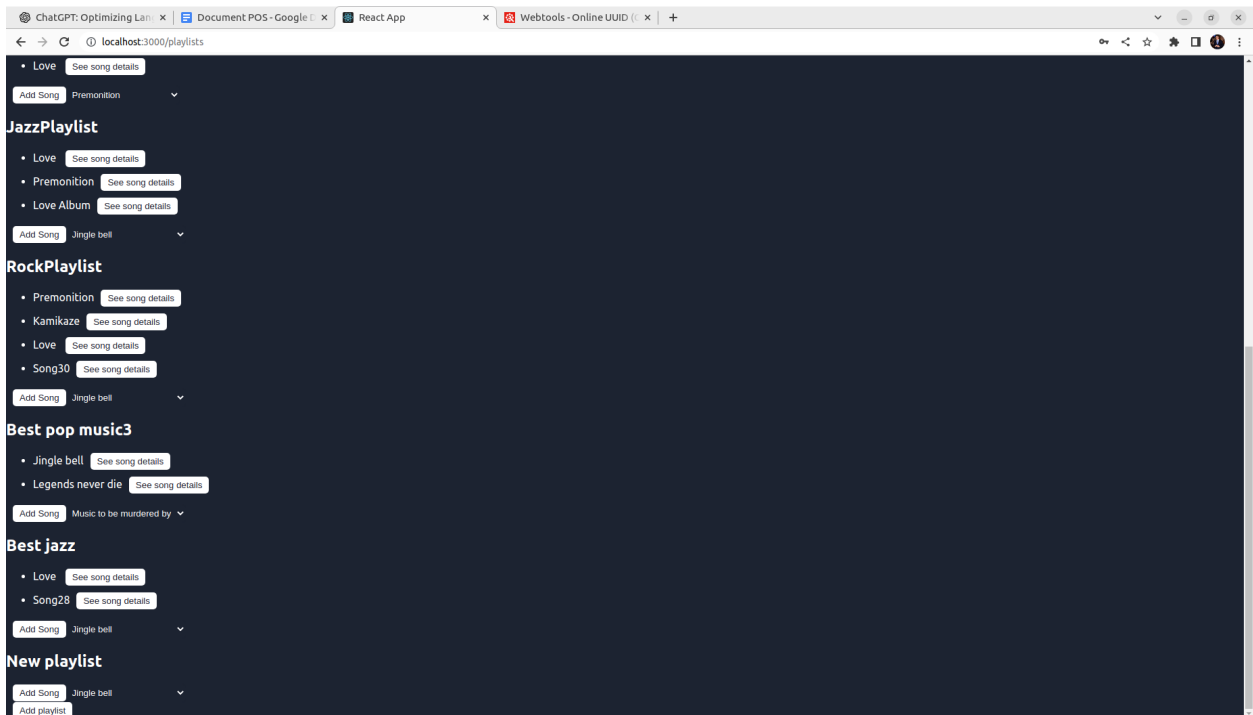

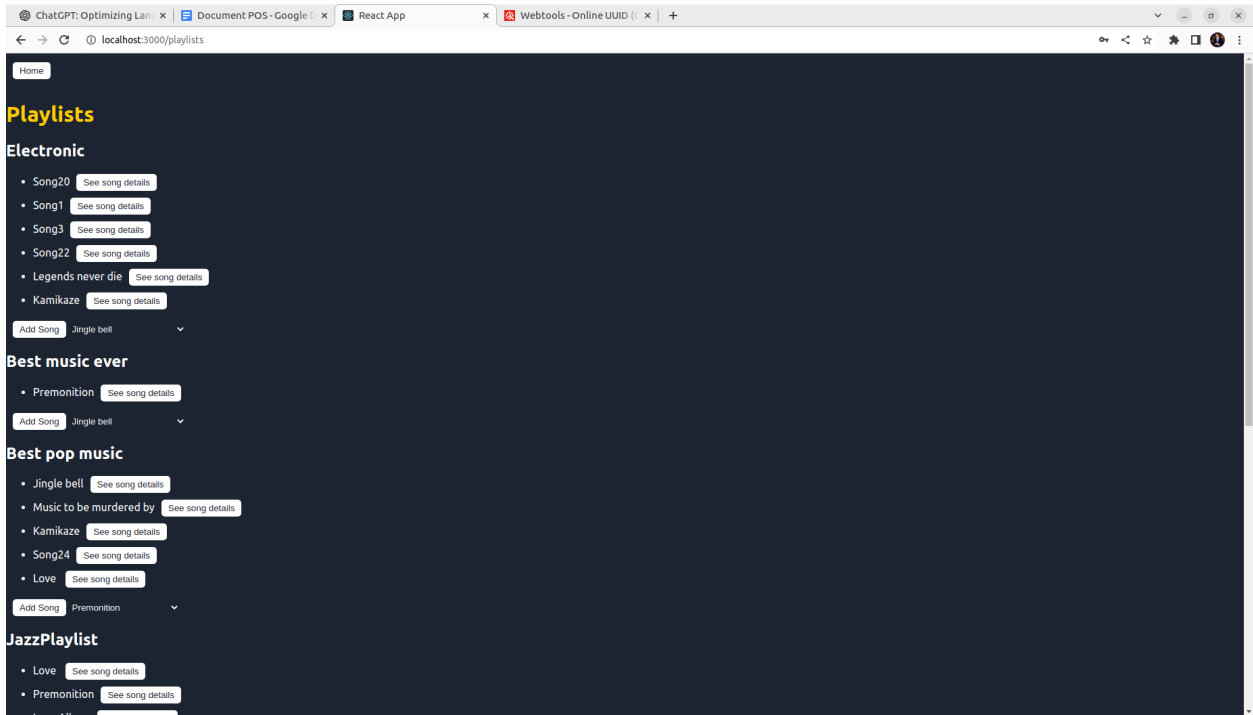

- **Pagina Login**

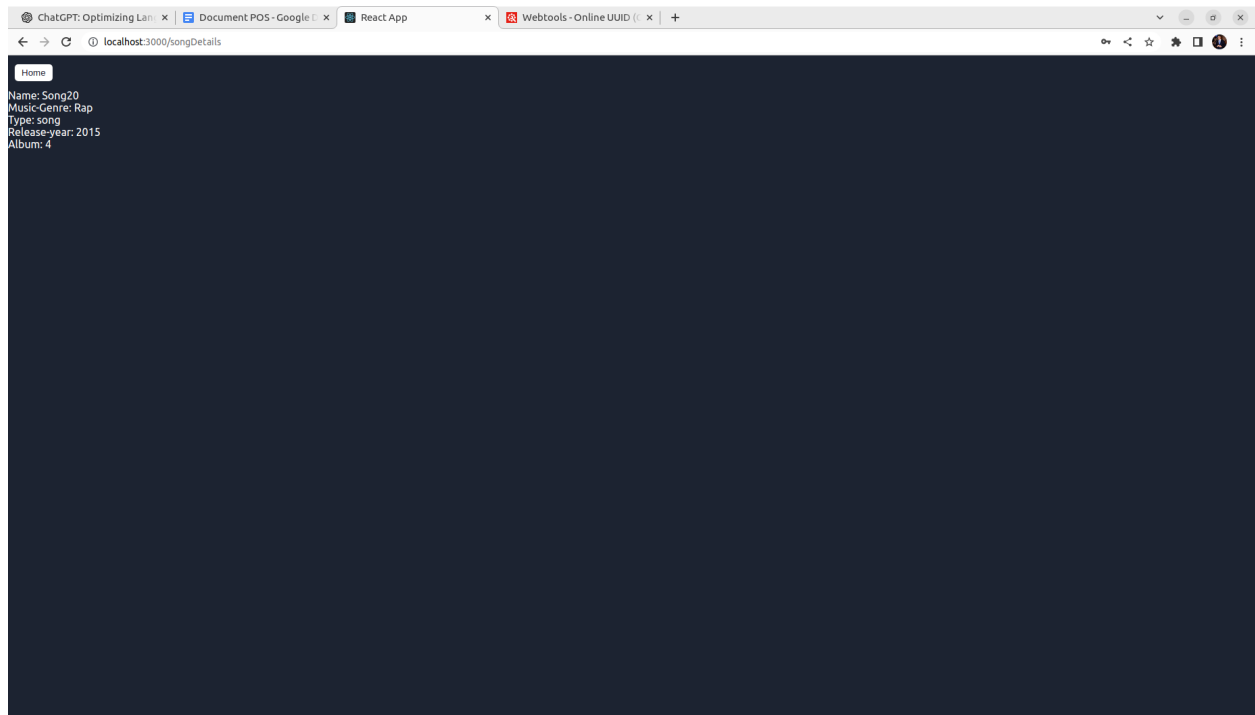

- **Homepage clienti. Diferentele pentru tipurile diferite de utilizatori sunt butoanele(Artist are Add Song, Content Manager are add Artist, User are Playlists). Se poate folosi butonul de Logout**

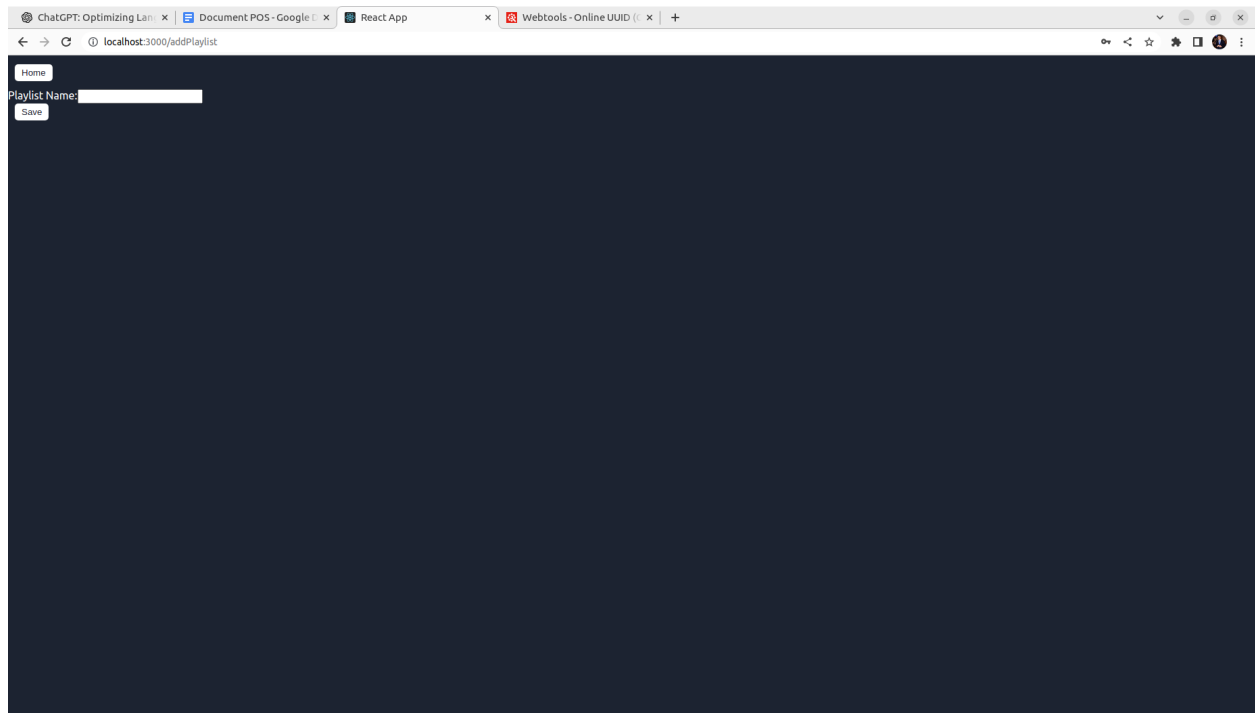

● Pagina playlist-uri

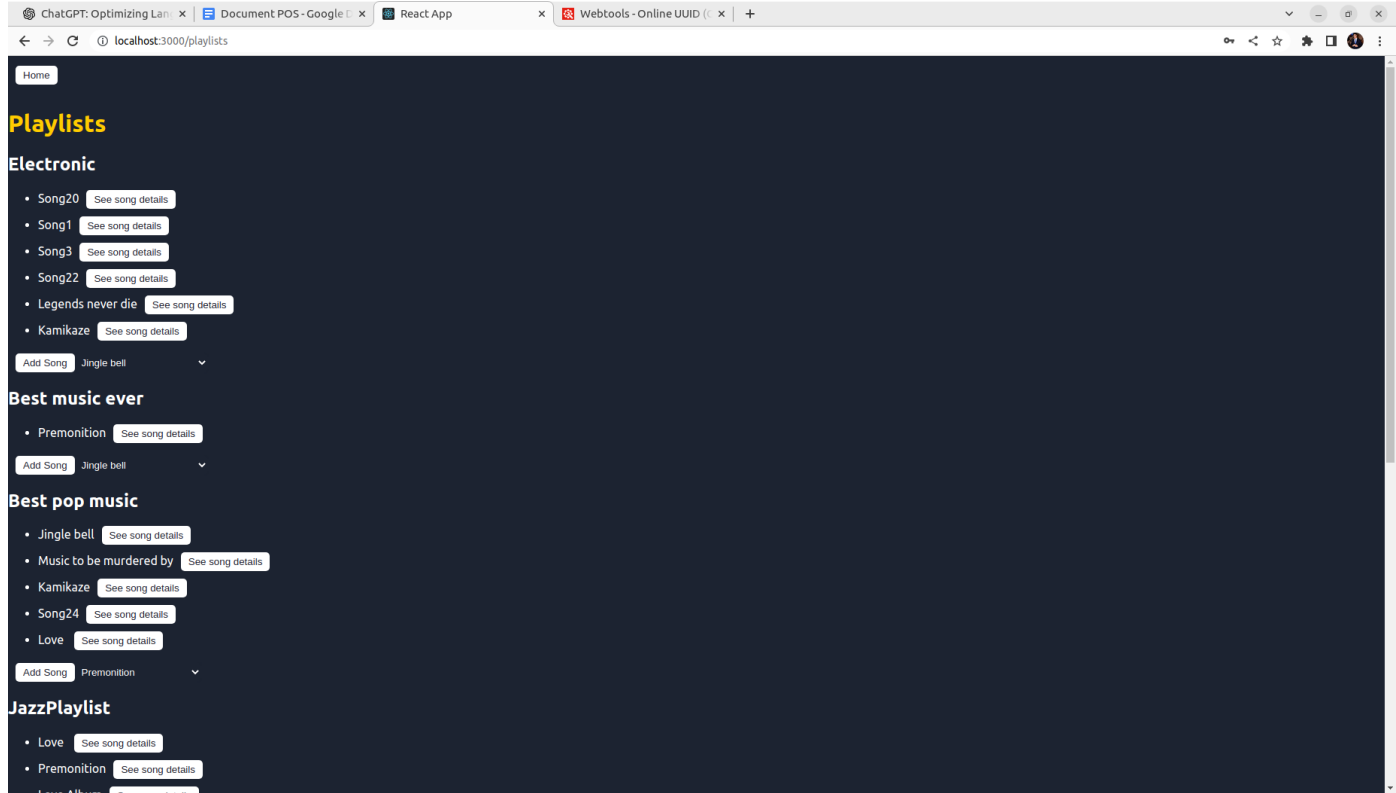

- Din playlists, apasand pe butonul “See Song details” ne va duce pe pagina cu detaliile unei piese(s-a folosit LINK-ul din `_links`, HATEOAS)

- Din playlists, apasand pe butonul “Add playlist” din josul paginii ne duce pe o pagina unde adaugam un nou Playlist gol

- In playlists, la finalul fiecarui playlist este un dropdown si un buton “Add song”. In dropdown se afiseaza doar melodiile care nu fac parte deja din acel playlist. Dupa ce se selecteaza acea melodie se apasa pe butonul add Song. In ss nu se vede dropdown-ul din pacate
